All Metal Forms & Engineering Equipment Co.

Manufacturers of Chemical Process Equipments

Company Introduction

Dear Sir / Madam,

We **All Metal Forms & Engineering Equipment Co.** based in Mumbai, India is engaged in Steel Fabrication business manufacturing various **Process Equipments like Pressure Vessels, Heat Exchangers, Reactors, Columns, Tanks** etc in Carbon Steel, Alloy Steel, Stainless Steel.

Our factory is located at a strategic location nearby to Major Sea Ports in India from where the major Import & Export activities of India take place. Nearby to our factory all major stockiest & importers of raw materials are located and this gives us ample availability & economic pricing of raw materials required for our business.

We have a Factory sprawling over 2000 Sq. Mtrs. well equipped with all the machineries & manpower to carry out our job. Our execution team consists of engineers with intensive experience of designing & manufacturing of process equipments & structural steel fabrication.

Our products are widely applicable in industries like Oil & Gas, Petrochemicals, Power, Steel, Chemicals, Fertilizers, Pharmaceuticals, Off-Shore, Ship Building, Construction, Cement, Distilleries, Sugar, Dairy, Food etc.

Our Product Range : Pressure Vessels, Limpeted Vessels, Jacketed Vessels, Rubber Lined Vessels, Reactors, Columns, Heat Exchangers, Condensers, Filters, Mixers, Receivers, Agitators, Storage Tanks, Ducting, Process Skids, Piping Spools, Structural Steel Fabrication, Offshore Equipments etc.

The above products are Manufactured & Supplied as per all National & International Standards like **ASME, NB, TEMA, IBR, GMP** etc.

Our another division is engaged into manufacture & supply of Large Size (1" to 60") Welded Pipes, Two Half Welded Fittings, Long Radius & Short Radius Bends (1D to 10D), Flanges, Seamless Butt weld Fittings, Forged Fittings, Valves, Strainers, Gaskets, Fasteners etc. in Carbon Steel, Stainless Steel, Alloy Steel & other exotic materials.

We supply only quality materials tested from Govt Approved Labs or reputed Third Party Inspection Agencies like BV, DNV, LR, TUV, SGS, IBR etc.

We also undertake onsite Piping, Fabrication & Erection jobs on both Labour Job or LSTK basis.

Value Added Services

Plate Pre Bending : Plates are bent to various radius or to form ready-made shells - max dimensions Width 3 Mtr, Length 12 Mtr & Thk 150 mm.

Machining & Cutting : Pipes & Headers of heavy thickness and custom size can be supplied by Honing, OD Turning, ID Boring, Grooving, Hole Cutting etc.

Custom Surfaces : Shot Blasting, Painting, Pickling, Heat Treatment, Rubber Lining, PTFE Coating, Epoxy Coating, Galvanizing etc.

Waterjet Cutting : Sheets & Plates can be accurately cut into various shapes - max dimensions Width 3 Mtr, Length 9 Mtr & Thk 200 mm.

Should you require any further information, please feel free to contact us at once.

Thank you very much, looking forward for your valued enquiries & requirements.

Warm Regards
